

ANUPRIYA N

FRONTEND DEVELOPER

Ranipet, Tamil Nadu | +91 8870173838 | anupriyanarasimman2004@gmail.com | linkedin.com/in/anupriyanarasimman

PROFESSIONAL SUMMARY

Frontend Developer with 1 year of hands-on professional experience at Myth Reality Technologies Pvt. Ltd., contributing to healthcare, workforce management, conference, and web application projects. Experienced in Angular, TypeScript, responsive UI development, UI design, validation, debugging, report workflows, and backend-connected features. Basic knowledge of Node.js, Express.js, REST APIs, Authentication, API Integration, MySQL, Database Integration, Real-time Data, and Flutter. Comfortable understanding existing code, designing user-friendly interfaces, resolving practical production issues, and taking frontend features from UI design through working functionality.

TECHNICAL SKILLS

Frontend: Angular, TypeScript, HTML5, CSS3, SCSS, Responsive UI, UI Design

Basic Knowledge: Node.js, Express.js, REST APIs, Authentication, API Integration, MySQL, Database Integration, Real-time Data, Flutter

Development Tools: Git, GitHub, Postman, API Testing, Debugging, Validation, Visual Studio Code, SourceTree

Design & Additional: Figma, Canva, Python, NumPy, Pandas, Google Colab

PROFESSIONAL EXPERIENCE

Frontend Developer - Myth Reality Technologies Pvt. Ltd. | Thiruvallur, Tamil Nadu | 1 Year

Worked on frontend web application development covering UI design, frontend implementation, REST API integration, validation, debugging, testing, and backend coordination. Designed and developed responsive interfaces using Angular, TypeScript, HTML, CSS, and SCSS, and integrated frontend modules with Node.js and Express.js backend APIs and database-driven application flows. Contributed to healthcare reports, print workflows, form validation, API testing, and functional issue resolution.

SELECTED PROJECTS

Kiosk Health ATM - Healthcare Web Application | In Development

Contributing to both UI design and Angular frontend development for healthcare and diagnostic test workflows. Designing responsive and user-friendly screens for device-based health checks, patient test results, validations, report generation, and reusable print workflows. Integrating frontend screens with Node.js and Express.js APIs and debugging frontend-backend issues across test screens, APIs, and report pages. Technologies: Angular, TypeScript, SCSS, Node.js, Express.js, MySQL, Figma.

SERV Attendance & Workforce Application | Published Team Project

Contributed to Flutter application features and user workflows for employee attendance, tracking, approvals, reporting, and workforce operations. Integrated REST APIs with backend services, worked with real-time application data, and supported production debugging and issue resolution across frontend and backend flows. Technologies: Flutter, Node.js, REST APIs.

ICAIH 2026 Conference Website | Live Web Project

Developed responsive conference pages and registration workflows supporting participant registration, research submissions, and event-related processes. Worked on conference forms, participant submission flows, backend integration, MySQL database operations, validation, and form data handling. Technologies: HTML5, SCSS, JavaScript, Node.js, MySQL.

EDUCATION

B.Sc. Mathematics | 2021 - 2024

Arignar Anna Government Arts College for Women, Walajapet

CERTIFICATIONS & PROFESSIONAL STRENGTHS

Certifications: NCC 'B' Certificate | NCC 'C' Certificate | English Typing - Junior | Digital Productivity - NIIT Foundation

Strengths: UI Design | Responsive UI Development | Fast Code Understanding | Cross-Stack Collaboration | Debugging & Problem-Solving

Languages: Tamil - Fluent | English - Working Proficiency
